

Plaques

A Great Glass Alternative

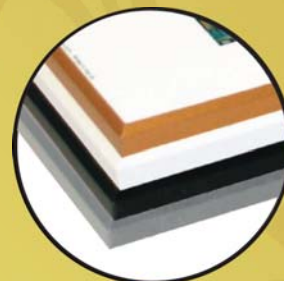

Plaque mounting is simply the hottest new way to attractively present a photo, print or certificate. In this process, your print is laminated directly to a board and the edges are finished with a beautiful bevel.

- Durable
- Water Resistant
- Total UV Protection
- Scratch Resistant
- Safe for Children

How to compute United Inches

$$UI = L + W$$

*United Inches is calculated by adding image length plus the image width. For example, an image that is 8"x10" would be 18 United Inches.
United Inches = Length + Width
